

Gruppe G: Beta Sprint Review Report

The screenshot displays a Jira board for Sprint 4. The 'Backlog (features)' column on the left lists tasks such as 'Check rerender amount' (#108), 'Cloud Deployment des Projekts' (#55, Medium), 'Umsetzung des Projekts in Kubernetes' (#54, High), 'Chat QoL changes' (#103, Low), 'General Frontend response on invalid inputs' (#104), 'write script to delete all new changes to postgres volum' (#76, Low, VS), 'ChatService security topics' (#57, Low, MU, VS), 'ChatService optimising' (#58, Low, MU), 'Maven Orderstruktur anpassen' (#67, Low), and 'Kategorie kann mit denselben Namen mehrfach angelegt werden' (#89, Low). The 'Sprint 4' column is currently empty. The 'In Progress' column is also empty. The 'Done 4' column contains tasks like 'Configuration Popup' (#16, Critical), 'Invites in Frontend' (#96, VS), 'Fixing Chat' (#102, MU), 'Gruppe wechseln' (#98, SR), 'Cost validation' (#100, MU), 'Update entry popup size adjustment' (#101, MU), 'Searchbar fertigstellen' (#97, MU), 'Einträge updaten' (#99, SR), 'User Homepage' (#14, Critical, MU), and 'Group View' (#19, Critical, MU). The 'Epics' column on the right lists larger features like 'Set up Docker enviroment' (#6, 2 tasks), 'User Service' (#10, 4 tasks), 'Chat Service' (#12, 3 tasks), 'Advertisment Service' (#4, 2 tasks), 'Inflation Service' (#15, 5 tasks), 'Content Service' (#7, 9 tasks), 'Keycloak Auth' (#22, 10 tasks), 'Frontend' (#83, 7 tasks), and 'Dokumentation' (#82, 2 tasks).

Weitere Einträge aus Done 4:

This section shows additional tasks from the 'Done 4' column, organized into four vertical panels. The first panel includes 'Docker-Compose auf dockerinterne Konfiguration umstellen' (#70, High, MU, VS), 'Error Handling' (#43, Low, MU), 'Keycloak Login Form' (#45, VS), 'Include of SonarQube to enforce quality assurance' (#73, SR), 'Keycloak ist aus dem Frontend ansprechbar' (#42, VS), 'Implement Access restriction based on client token' (#52, SR, VS), 'Define clear DTO's for every API Endpoint' (#71, SR), and 'Resolve warnings occurring at building project' (#72, SR). The second panel lists 'Important Flow for Frontend!!!' (#68), 'Merge of Userservice and Groupservise Databasemanagement' (#62, MU, SR, VS), 'Centralised Axios requests' (#68, MU), 'write Validator GroupDTO und InviteDTO' (#78, VS), 'Cleanup' (#75, 15/15, MU, SR, VS), 'Login/Register UI von Keycloak' (#41, VS), and 'Interceptor check again' (#74, SR, VS). The third panel shows 'Obfuscated ChatService' (#79, 4/4, Medium, MU), 'Insert testdata into the databases' (#24, 3/3, Medium, MU, SR, VS), 'Set up Docker environment' (#24, Medium, MU, SR, VS), 'Important Flow for Frontend!!!' (#68), 'Merge of Userservice and Groupservise Databasemanagement' (#62, MU, SR, VS), 'Centralised Axios requests' (#68, MU), and 'write Validator GroupDTO und InviteDTO' (#78, VS). The fourth panel contains 'Login/Register' (#13, Low, VS), 'Requests from Frontend are authorized' (#69, VS), 'Zeitraum im Frontend einstellen' (#92, SR), 'Testing' (#66, 7/8, High, MU, SR, VS), 'Add new entry method call' (#95), 'Reflux Store or similar needed for data storage between components' (#87, Critical, SR), 'Diagramme anpassen' (#93, 3/3), 'Diagramm 2 Daten' (#94), 'Adservice deletes AtomicIntegers every time its started' (#84, MU), 'Prefill swagger auth.' (#64, VS), and a '+ Eine Karte hinzufügen' button at the bottom.
